### Profile:

Computer Science student at the Open University of Israel seeking an entry-level SOC Analyst role, with strong interest in cybersecurity and defensive security.

Building practical knowledge in operating systems, networking, web technologies, and basic cyber defense through hands-on learning.

Brings analytical thinking, attention to detail, and a continuous-learning mindset to a junior security role.

### Education:

B.Sc. in Computer Science, The Open University of Israel (in progress).

TryHackMe Pre Security (in progress): cybersecurity fundamentals, computer fundamentals, operating systems, software basics, networking, web technologies, and basic attacks and defenses.

### Skills:

- Technical knowledge: Linux basics, networking, web fundamentals, basic security concepts, troubleshooting.
- Tools and systems: Linux CLI, Git, GitHub, TryHackMe labs.
- Programming languages: Python, Java, C, JavaScript, HTML, CSS.
- Core strengths: Analytical thinking, attention to detail, teamwork, adaptability, reliability under pressure; Native Hebrew, fluent English.

### Experience:

#### Sales Representative | Office Depot | 2021–2023

- Assisted customers with technology products and services by identifying needs, troubleshooting issues, and providing clear, practical guidance.
- Handled customer issues with professionalism and urgency, maintaining clear communication and effective follow-through until resolution.
- Supported troubleshooting and product demonstrations for a range of hardware and software solutions in a fast-paced retail environment.

#### Shift Supervisor | Yes Planet | 2019–2020

- Supervised day-to-day operations and coordinated team activity in a fast-paced, high-volume environment requiring consistency and attention to detail.
- Responded quickly to customer and operational issues to maintain service continuity and support smooth shift operations.
- Trained new employees and helped maintain organized processes, clear communication, and reliable execution across shifts.
